WELCOME

Welcome to the inaugural **Hack the Student Life** hackathon, delivered in partnership between Amazon Web Services (AWS), Softchoice, and IEEE UofT!

Get ready to unleash your creativity, problem-solving skills, and AWS expertise as we work together to tackle real-world challenges faced by students and faculty at UofT. Together, let's make a lasting impact on the university community and beyond!

CHALLENGE

***Devise a
solution to
a problem
at U of T
using AWS
services!***

At Hack the Student Life, teams of 4 will come together to tackle a pressing issue at the University of Toronto. Your mission? Pick a problem from the faculty's proposals and devise an innovative solution that leverages the power of AWS services. We will post the hackathon challenge prompts closer to the hackathon date, please watch out for communications on discord.

But that's not all! Your solution will be evaluated by a panel of esteemed judges, and the winning team will have the unique opportunity to collaborate with UofT IT Services and the corresponding faculty/department to bring their solution to life on campus as a proof of concept.

Throughout this journey, participants will also immerse themselves in Amazon's renowned working backwards strategy, ensuring that solutions are not only inventive but deeply rooted in understanding user needs and experiences.

Get ready to unleash your creativity, problem-solving skills, and AWS expertise to make a real impact on student life at the University of Toronto!

Hack the Student Life
Friday, November 29, 2024

LOGISTICS CHECKLIST

This page describes all the logistical details you need to know before coming to Hack the Student Life. Make sure to **record this information** in a safe place so that you can access it easily when needed!

Venue — YYZ18 Amazon Toronto Office

18 York Street is located a short walk from Union Station and has paid underground parking available (\$25/day). Participants can take the elevator located in the building lobby to the 7th floor.

Registration — Bring ID and your Hacker Pass!

Participants will need to provide **valid government-issued ID and T-card** to claim a red visitor badge. This badge must be visible at all times and returned to the 7th floor security podium at the end of the hackathon.

Download your **Hacker Pass** from your dashboard at hackstudentlife.ca or through your acceptance email!

WiFi — BrokenWires@@2019

Connect to the guest WiFi using the password above!

SCHEDULE

TIME	EVENT
8:00 AM - 8:30 AM	Sign-in and breakfast
8:30 AM	Opening ceremony and welcome keynotes
9:00 AM	Hacking begins
12:00 PM - 1:00 PM	Lunch
3:30 PM	Hacking ends
3:30 - 4:30 PM	Judging & Networking
4:30 - 5:00 PM	Closing ceremony

JUDGING

Judging at Hack the Student Life will take place at 3:30 PM. Each team will be judged by a pair of judges based on the criteria below. On the day of the hackathon, we will release a judging schedule shortly after the opening ceremony.

Each team will have a 5 minute judging slot. Be prepared for a:

- **2 minute** presentation
- **3 minute** Q&A

Devpost: <https://htsl-2024-23055.devpost.com>

Key Indicator	Criteria	Points
Innovation and Relevance	The proposed solution is innovative and presents a suitable and effective approach to solve one of the challenge prompts.	10
Technical Complexity	The proposed solution uses a cloud-based approach and leverages sophisticated and intricate methods, demonstrating a high level of technical complexity	15
Working Demo	The demo is executed flawlessly and is easily reproducible, showing a strong understanding of design principles and technical concepts. It matches the expected output described in the presentation	10

JUDGING

Key Indicator	Criteria	Points
Presentation	The presentation clearly explains the main idea, solution design, and additional insights from the design process. The team demonstrates collaboration, preparedness and a convincing understanding of the subject matter	5
Feasibility and Effectiveness	The proposed solution uses AWS products to effectively address the identified problem. It improves student life at UofT while being readily implementable	10

JUDGES

Donna Kidwell

Chief Information Officer
@ UofT

Rahul Pisal

Solution Architect
@AWS

Clifton Forlines

Associate Director of Office of
Strategic Partnerships in the CS
Department
@ UofT

Marden Dov Paul

Director Planning Governance
Assessment, Office of the CIO
@UofT

What is IEEE UofT?

IEEE UofT is the largest student branch of IEEE International in Canada.

- Here at IEEE UofT, we are dedicated to connecting students and professionals in a diverse facet of industries.
- As a student-run organization, we aim to provide students with the technical knowledge and practical experience necessary for their post-university endeavors.
- We expose our students to diverse opportunities in the technology industry through our technical and career-oriented events.
- Through these large-scale events, we also strive to provide industry leaders with a platform to expand their influence.

Each year, we host our 2 flagship hackathons and countless workshops, lectures, and professional development opportunities including:

- NewHacks Beginning Friendly Hackathon
- MakeUofT Hardware Hackathon
- Technical Interview Night
- And so much more!

Follow us on **Instagram** @[ieee_uoft](#) to stay up-to-date on our latest events!
